

FILE NOTE**PROJECT: POTLATCH CORPORATION AVERY LANDING SITE****August 2, 1991****From: Brian Painter**

Norm Linton with Potlatch contacted me today (Friday) and said that a meeting on the avery landing site is being set up for wednesday August 7 at 10:00 am. Scheduled attendees will be from Potlatch, the PRP railroad, and DEQ. Norm said he wants to get some resolution on the cleanup.

Norm said that Doug Conde is coming from central office and that he asked that Lisa Prochnow and myself attend. He was trying to arrange a conference room at the CDA resort, but asked me to reserve the DEQ confernce room also.

Norm said that Potlatch is using their helicopter to shuttle the PRP attorneys to the site before the meeting on wednesday so they can look around at the site and the oil going into the Joe.
